SUMMARY

Software Engineer (B.Sc. in Information Systems Engineering, High Honors, GPA 3.6/4) with proven experience across banking, finance, and automotive industries and strong focus on backend development. Skilled in building scalable microservices, middleware, and APIs using C#, .NET/.NET Core, Entity Framework, SQL and database design, supported by CI/CD automation (Azure DevOps). Additional experience in frontend and mobile (JavaScript, Angular, Swift), with commitment to clean architecture, observability, and delivering maintainable, high-quality systems.

EDUCATION

B.Sc., Information Systems Engineering | Mugla S. Koçman University

2017 - 2022

Mugla S. Koçman University, Department of Information Systems Engineering, GPA 3.6/4, High Honor Degree

Computer Science - Erasmus+ - Student Exchange Program | Warsaw University of Technology - WUT

2019

High School Diploma | TED Alanya College

2016

High school diploma with Turkish Education Association Full Education Scholarship

WORK EXPERIENCE

Senior Software Engineer | Misyon Yatırım Bankası

12/2024– 08/2025

Treasury & Investment Domain – Backend (C# .NET)

- One of the two core developers of Turkey's first Visa Direct implementation.
- Developed scalable microservices using .NET 8, Entity Framework, MSSQL and integrating with Azure DevOps CI/CD pipelines.
- Collaborated with Visa teams from multiple countries on system integration.

Software Engineer | IBTech | QNB Finansbank

04/2023 – 12/2024

Mobile Domain - Chatbot (Q) Team – Backend (C# .NET)

- Developed and maintained monolithic backend services for Chatbot in QNB mobile application.
- Implemented and optimized RESTful API integrations with core banking systems.
- Worked in a Scrum team, actively participating in sprint planning, daily stand-ups, and code reviews.
- Supported CI/CD pipelines on Azure DevOps, contributing to smoother deployments and faster delivery cycles.

Software Engineer | AVL

07/2022 – 04/2023

Application Development Team

- Tool development for Calibration Processes in automotive industry with C# .NET, WinForms & DevExpress – Worked in AVL CRETA team
- Worked with Austrian engineering teams in English, supporting collaboration on automotive software tools.
- Web tool development for managing internal application targets: Full stack - PostgreSQL, C#, Angular, JS

SAP ABAP Intern & | Multiple Companies

08/2021 – 07/2022

- Gained hands-on SAP ABAP experience through internships and consulting roles across TeamPro, Rapidsol, and Sovos. Developed solutions for customer enhancement requests, worked on HCM projects, and provided technical support for enterprise SAP systems.

SKILLS

- Programming Languages: C#, C, Python, JavaScript, Swift, SAP ABAP
- Backend & Middleware: .NET/.NET Core, ASP.NET, Entity Framework, RESTful API Design, Microservices, Middleware
- Frontend & Mobile: Angular (JavaScript/TypeScript), SwiftUI, UIKit, WinForms, WPF; published iOS native apps on Apple App Store
- Databases: MSSQL, MySQL, PostgreSQL, MongoDB, NoSQL, Supabase; Database Design & Optimization
- DevOps & Tools: Azure DevOps CI/CD, Git, JIRA, Confluence, Visual Studio, VS Code, PyCharm, Xcode
- Architecture & Practices: Clean Architecture, Agile - Scrum methodology, OOP, DDD, SOLID Principles, CQRS
- AI-assisted Development: Proficient with Cursor, Windsurf, Gemini CLI, Claude Code, OpenAI GPT Codex, GitHub Copilot, Trae

COURSES/ CERTIFICATES

- 1601 Tübitak Supported Entrepreneurship Certificate Program
Tübitak - April 2018
- Model United Nations MUN Delegate
Member United Nations - April 2015
- Google Developer Groups DevFest Izmir'17
Google – December 2017
- Advanced Sailing Course
Göcek Yacht Club Sailing School – 2013
- Competent Crew
UK Royal Yachting Association - RYA - 2019

LANGUAGES

- English - C1 (Fluent)
- German - A2 (Beginner)

ADDITIONAL INFO

- Military Service Status: Exempt
- **Disability Status: 67% (Level II) - Permanent** (Congenital, non-visible condition, poses no impact on daily activities or work responsibilities)
